Venture Capital Performance

A Comparative Study of Investment Practices in Europe and the USA

Keith Arundale

Series: Routledge International Studies in Money and Banking

This book provides the reader with an in-depth understanding of the various structural, operational and wider environmental factors that impact on the performance difference between UK / European and US VC funds. The study is unique in that it provides, for the first time, a holistic and extensive analysis of the entire investment process from sourcing deals to exiting deals specifically contrasting Europe and the US in terms of the variables pertaining to the investment process and the impact on the fund performance. The characteristics of the better performing funds in Europe and US are also investigated.

Dr Keith Arundale is a university lecturer, executive trainer and consultant in private equity & venture capital. He was awarded an Adam Smith Business School prize from the University of Glasgow for his doctoral research into VC fund performance in Europe and USA.
